CAUTION: This schematic diagram is a normal standard one. The parts list and/or schematic diagram will be changed without notice.

NOTES

- CERAMIC capacitor All ceramic capacitors are above 25V rating
- FILM capacitor All film capacitors are above 50V rating
- NP: NON POLAR capacitor
- T: TANTALUM capacitor

And all capacitors are ELECTROLYTIC capacitors, unless otherwise marked. Unless otherwise indicated, resistance in Ω, KΩ, MΩ, Resistors, 1/4W, 5%, Capacitance in pF, nF.
